The Popu

We Wish To Express Our Sincere Thanks

We feel that the enormous throngs that crowded every inch of space on the seven vast floors of this mammoth new building was a demonstration of the fact that "The Popular" has become a publicly recognized institution of sufficient power and prestige

way that was never known before locally. True enough, there has never been another mercantile event in the Southwest that could compare with The Popular's Opening, and there has never been an-

other event that contained the pure gold of sentiment. The association of "The Popular" in El Paso's history, and the high marks of public favor that are poured upon this business so freely, have always seemed

to us to be something out of the ordinary. We can only express our sincere thanks in doing something for our thousands of

friends in the way of offering them an attraction that will long be remembered, and that may be called an "act of appreciation," that in part repaid them for attending this event.

To those who were unable on account of the mammoth crowds, to reach the upper floors, we want you to realize that the management and employees did everything that human power and skill could do to cope with the crowds and see that all received the proper attention, in other words we did our best. And in order that all may have an opportunity of viewing our gorgeous window and interior displays, they will remain intact for the next few days.
